The 16th IFAC Symposium on Large Scale Complex Systems: Theory and Applications (IFAC LSS 2022) is a core triennial event of IFAC Technical Committee on Large Scale Complex Systems and will be held in Xi'an, China, Apr. 22-24, 2022. The Symposium is to discuss new developments in methodologies and techniques useful in handling complexity in analysis, modelling, control and optimization of large scale complex systems. Please visit (<https://www.ifac2022.com>) for details.

The contributions in either regular or invited sessions are welcome. All accepted paper will be published in IFAC PapersOnline, and also be further considered for publication in the following journals:

- Automatica/Control Engineering Practice/Annual Reviews in Control/ Journal of Process Control/Engineering Applications of Artificial Intelligence.
